

SHIVAM MAURYA

AI ENGINEER • DATA ANALYST • FULL STACK DEVELOPER

Email: aniheshmaurya456@gmail.com | Phone: [+91 9044144059](tel:+919044144059) | Gorakhpur, India
LinkedIn: linkedin.com/in/shivam-maurya-b5468932b | GitHub: github.com/DevShivam-maurya

PROFESSIONAL SUMMARY

A highly motivated Computer Science Engineering (Data Science) student passionate about Artificial Intelligence, Data Analytics, and Full Stack Development. Extremely skilled in Python, SQL, C++, React.js, and modern analytics environments with hands-on experience building complex AI companion suites.

Proven capability in building intelligent decision systems, statistical predictive pipelines, and high-fidelity interfaces while adhering strictly to professional clean code architecture.

CORE TECHNICAL COMPETENCIES

Programming Languages: Python, C++, SQL, JavaScript, HTML, CSS
Data Analytics & Viz: Power BI, Tableau, Advanced Excel, Pandas, NumPy, Matplotlib
Modern Web & DB: React.js, Express.js, Node.js (Full-stack), MongoDB, REST APIs
Artificial Intelligence: Generative AI, Prompt Engineering, Gemini / OpenAI SDKs, LLM Heuristics
Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Design, UI/UX Basics

NOTABLE SOFTWARE VENTURES

AI Profile Enhancer System (React.js, Python, MongoDB, Gemini AI APIs, Framer Motion, TailwindCSS)

An intelligent evaluation platform that ingests developers' public web footprints (GitHub, LinkedIn, portfolios) to evaluate profile metrics, score overall digital branding, diagnose skill gaps, and suggest professional updates.

- Architected automated scrapers and analysis feeds matching profile details against trending job listings.
- Designed high-fidelity telemetry dashboards with granular metrics showing analytical report cards.

LifeLine AI Assistant System (React.js, Python, Vite, Gemini Pro SDK, CSS Modules)

A premium glassmorphic conversational companion facilitating personal career growth, automatic daily schedule planning, milestone tracking, and task priority loop controls.

- Developed a structured career roadmap generator mapping modern skills to customizable learning checkpoints.
- Integrated real-time heuristic response loops using structured text streams that serve professional insights.

ACADEMIC CREDENTIALS

GL Bajaj Institute of Technology and Management

2023 - 2027

B.Tech in Computer Science Engineering (Data Science) | Status: Pursuing Academic Stream

Academic Global School, Gorakhpur

Class XII (2023)

Senior Secondary School Certificate (PCM Core) | Academic Performance Score: 78.6%

Saraswati Vidya Mandir, Gorakhpur

Class X (2021)

Secondary School Certificate (General Sciences) | Academic Performance Score: 90.16%

CREDENTIALS & KEY DISTINCTIONS

Professional Certifications: 1. Data Analyst Certificate | 2. Palo Alto Networks Cybersecurity Certification

Coding DSA Accomplishments: Solved over 300+ advanced algorithm cases on elite programming portals.

Operational Proficiencies: B.Tech Specialization in Data Science, GenAI Expert, Full-Stack Architecture capable.
